Pascoal-Kahamba.com 

Front-End React developer with more 3 years of experience focused on performance, and self-mastery in solving problems through clean and readable code for the smooth functioning of the application, proactive with quick ability to learn new technologies and always willing to learn every day and grow in this world of technology.

Key Technologies

- JavaScript
- TypeScript
- PostgreSQL
- Reactjs
- Express
- MongoDB
- Nextjs
- MYSQL
- Nodejs

Complementary Technologies

During development I use certain libraries for most systems, some of them are:

- API Context
- Tailwind-CSS
- Vitest
- Axios
- Jotai
- Mantine-UI
- UI-Material
- Lucide-react
- Jest
- Styled-components
- React-icons

Skills

- Create code readable to other developers.
- Find bugs and propose action plans for remediation.
- Working as a team.
- Creative thinking.
- Follow instructions and deliver quality results.
- Good ability to work with new technologies.
- Willingness to continue learning.

Experience

JANUARY 2023 - ONE DAY ONLY

Front End Developer / Student Statistics

Responsible for creating and maintaining the project and others that are on my github.

NOVEMBER 2022 - CURRENTLY

Front End Developer / Freelancer Standalone

Responsible for developing plans, goals and timelines to complete projects on time. Support in conflict resolution, seeking to negotiate mutually beneficial agreements.

Academic Training

JANUARY 2018 - APRIL 2022

Informática de Gestão / Polytechnic Institute of Administration and Management of Catumbela

During my journey in high school in the first year I had the first contact with programming, studying algorithms and being sincere I liked very much the feeling in the course of the year I was feeling that the content was already basic for me so I went to look for more content then it is that I had my first contact at the end of the year with html and css since the theme was only foreseen in the school for the third year. Since then I started doing some layouts in the second year wanted to be concrete in aria not depending on the content of the school that was very basic, so I started already studying Javascript after some exercises to improve my knowledge and with what I knew at the time I had the privilege to contribute in the development of our project of the end of the course and currently I am improving my knowledge in typescript and react.

Complementary Activities

- I helped develop the front-end of our end-of-course project.
 - I've been helping and motivating friends to get interested and join the area.
 - I've been helping developers with code reviews, bug fixes, tips for improving code, and even helping them take the next steps.
-

Languages

- Portuguese (Native)
 - Intermediate English
-

Hobbies

- Programming and studying interesting technologies and concepts from the tech world is without a doubt my greatest hobby.
- Watch movies, and series. I love science fiction and romance.
- Listen to music.
- Read a novel, science fiction, or a social book.
